

Circle+

Type F

Plugwise

The Circle+ has the same functions as a Circle, but also serves as a network coordinator. It registers which modules are part of the network and communicates that to the Plugwise software. The Circle+ is equipped with a clock that is used to synchronise timing with the other Plugwise modules. After the network has been installed, the Circle+ can be used like any other Circle. Each Plugwise network contains one Circle+.

Dimensions: 81,3 x 72 x 43,5 mm
Voltage: 100-240 V~
Max. Current: 16 A

Frequency: 50-60 Hz
Plug: CEE 7/7 (E&F Hybrid)
Female plug: CEE 7/4 Schuko (F)

Be wise, plug in.
